Highly technical DevOps engineer with experience in Python, Golang and containerization. Able to break down technical problems and find programmatic solutions and have built custom in-house QA solutions. Seeking roles that offer the opportunity to build new applications and services.

TECHNICAL SKILLS

AWS
Containerization
Terraform
Okta

REST APIs
Python, GoLang
CI/CD
Zscaler

TECHNICAL EXPERIENCE

SimpliSafe, Boston MA

Senior DevOps Engineer

June 2025 - Present

- Oversaw projects from inception to completion, ensuring timely delivery and alignment with business goals.
- Administered services such as Okta, AWS, GCP, Google Workspace.
- Collaborated with cross-functional teams to ensure smooth deployment and operation of applications.
- Deployed and maintained VPN matching business from engineering to 24/7 critical monitoring operations
- Assisted with deployment of AI tools and platforms.

IT Infrastructure Engineer

April 2023 - June 2025

- Developed system-monitoring and support automation to enhance and scale the quality of support
- Deployed and manage business-critical applications and resources in Amazon Web Services.
- Developed and maintained internal tools to improve the efficiency of the IT team.

Vicarious Surgical, Waltham, MA

DevOps Engineer

November 2021 - April 2023

- Maintained build system, documentation system, code repositories, and more.
- Applied feedback from developers to change or create new services.
- Improved the workflow of non-developers using software tools.
- Coordinated and executed our software build and release schedule.
- Kept up to date with best practices and security concerns.
- Designed and implemented new CI build pipeline to meet increasing demands.

Verkada, San Mateo, CA

Technical Support Engineer

May 2020 - May 2021

- Helped customers troubleshoot network, hardware, and software issues related to the Verkada platform.

- Collaborated with Engineering and Product teams to report bugs and test new products and features.
- Developed public applications in Python using Verkada's public API.
- Developed internal applications and libraries/modules in Python & GoLang to improve the efficiency of my team.

EDUCATION

Champlain College*, Burlington, Vermont May 2020
Bachelor of Science in Computer Networking and Cybersecurity

**Designated a National Center of Academic Excellence in Information Assurance Education by the National Security Agency and the Department of Homeland Security.*
